

AFC FYLDE SUCCESS ON & OFF THE FIELD

The sun shines down on the superb 2000 seater main stand at Mill Farm

In December of 2015 CCP Building Products were pleased to supply Fylde Borough Council's flagship Mill Farm Community Project with dense and medium dense product in partnership with Keyline Builders Merchants.

The complex has at its heart a multi-million-pound Sports Village which includes a cutting-edge bar Sports Bar, a Mediterranean Restaurant and a Conferencing Centre.

Located a stone's throw from Junction 3 of the M55, the site provides a new six thousand capacity stadium for AFC Fylde with 2000 seats in the main stand and meets all the ground requirements for any future entry into the Football League.

Originally known as Kirkham & Wesham following a merger of Kirkham Town and Wesham in 1988 the club are currently members of the National League North having changed its name in 2008 after winning the FA Vase.

This project adds to the ever-increasing list of Sports Complex Constructions that CCP have contributed to, proving once again that CCP Building Products are indeed, in a 'League of their Own'.
