

ENVIROMENTAL POLICY

ENVIRONMENTAL POLICY

The CCP Group are among the leading manufacturers of precast concrete masonry blocks in the industry using both dense and lightweight materials. Manufacturing occurs at locations in Middlewich (Cheshire), Bury (Greater Manchester, Aberdo (N Wales) and Llay (Wrexham).

The Company Directors are committed to:

- Maintaining a compliant environmental management system at all CCP sites in accordance with BS EN ISO 14001:2015 that is mindful of our responsibilities to both our neighbours and habitat.
- We strive to operate efficiently, with a commitment to continual improvement and to comply with all relevant environmental legislation, regulations and standards.
- Setting Objectives and Targets which validate our commitment to:
 - A reduction of our waste to landfill through a professional waste management partnership
 - To better manage our water resource with a view to reduction wherever possible
 - To improve power and fossil fuel usage

To ensure that our employees receive proper instruction and training in relation to these environmental objectives and practices and that the same is communicated and understood by are associates and individuals working on our behalf.

P Blanchard

Managing Director
